

ASSEMBLY

PACKAGE CONTENTS

- 1x Chair Backrest
- 1x Chair Seatbase
- 1x Wheelbase
- 2x Armrests (pre-installed)
- 1x Tilt Mechanism
- 1x Head Pillow
- 1x Lumbar Pillow (THRONE & OMEGA only)
- 1x Accessories Box

ACCESSORIES BOX CONTENTS

- 5x Casters (Wheels)
- 1x Hydraulic Piston
- 2x Magnetic Side Covers
- 2x Lever Handles (For Multi-tilt only)
- 4x M8 Screws
- 8x Spring Washers
- 1x Long Allen Key
- 1x Magnetic Screwdriver Handle
- 1x Reversible Phillips + Hex Screw bit

ASSEMBLY VIDEO
Scan this QR code or visit secretlab.co/pages/resources to watch our full assembly video.

Remove all parts from the box, while taking care to avoid the backrest recline lever and backrest bracket. Check if there are any missing parts.

1 Lay out the foam sheets found in the packaging on a flat surface. Place the wheelbase upside down on top of the foam and insert the 5 casters.

2 Turn the wheelbase the right side up and insert the hydraulics piston. Slide the hydraulics sleeve over the piston.

3 Remove the 4 M8 screws that are pre-installed in the backrest using the hex side of the screwdriver or Allen key.

4 Slide the backrest bracket on the right side down onto the right recline bracket until it stops. Insert the M8 screws previously removed from the backrest only halfway.

5 Push the left recline bracket up to align with the screw holes on the left of the backrest. Insert the M8 screws, then tighten all four fully on both sides of the backrest using the long Allen key.

6 Install the magnetic side covers by simply placing them over the backrest brackets. The magnets will snap them into place.

7 Remove the recline strap. Then, using the Phillips screwdriver, remove the red screw located inside the hole on the right recline cover. This allows the recline to be used.

8 Lift the chair and gently set it facing downwards. **If you are assembling an OMEGA or TITAN, proceed to Step 9a. For THRONE, skip to Step 9b.**

9a Attach the multi-tilt mechanism to the bottom of the seatbase using the 4 M8 screws. Ensure the mechanism is in the correct direction. **Proceed to Step 10.**

9b Attach the full-tilt mechanism to the bottom of the seatbase using the 4 M8 screws. Ensure the mechanism is in the correct direction. **Proceed to step 11.**

FOR THRONE

10 Line up the grooves inside the lever handles with the notches and insert until it clicks into place.

FOR OMEGA / TITAN

11 Lift up the assembled wheelbase and insert the hydraulic piston into the socket of the tilt mechanism.

12 Carefully tilt the chair upwards while holding the wheelbase and position it upright. Congratulations! You've assembled your Secretlab chair.

FOR OMEGA / TITAN

USAGE INFORMATION

BACKREST RECLINE

Pull the lever FULLY and lean back slowly until desired angle is achieved, then slowly return the lever to its starting position. Ensure the lever locks back in place.

4D ARMRESTS

Press and hold the 1) front button to adjust front, back, and angle, 2) inner side button to adjust sideways, and 3) lever on the outside of the armrest to adjust height.

TILT TENSION

Turn the knob clockwise to loosen the rocking tension of the chair, anti-clockwise to tighten. Adjust according to your weight.

ARMREST ADJUSTMENT

The distance between armrests can be adjusted. Loosen the M8 screws at the bottom of the armrests and move to the desired position, then tighten to secure.

LUMBAR ADJUSTMENT

Turn the knob clockwise to increase the lumbar support, anticlockwise to decrease. Do not attempt to turn past the maximum and minimum.

TITAN ONLY

MULTI-TILT MECHANISM

Right lever (while seated): Pull up to adjust height. Left lever (while seated): Push down/pull up to lock/unlock the tilt mechanism.

FULL-TILT MECHANISM

Right lever (while seated): Pull up to adjust height. Push inwards/pull outwards to lock/unlock the tilt mechanism.

SAFETY INFORMATION

Sit in the center of the chair, with your back to the backrest.

Do not sit at the front edge of the chair.

Do not stand on the chair.

Do not use the chair with more than one person.

Do not push the chair around when a person is sitting in it.

Do not push down on the backrest when a person is reclined.

Do not place all your weight on the backrest only.

Do not place your hand or fingers near the recline mechanism.

The recommended weight load for 100kg (220lbs) for the THRONE series, 110kg (240lbs) for the OMEGA series, 130kg (290lbs) for the TITAN series, and 180kg (390lbs) for the TITAN XL series. The chair should only be used normally and in a non-abusive manner. For warranty information, please visit the Warranty section on our website.
